

FNSKU Label Generator

URGENT IMMEDIATE HIRE

Project Payment \$250 On Deployment Of Usable App

Timeline: 1-2 Days

Goal:

Develop database, label generator, and user interface to generate labels.

Tech:

- I. Google Firebase or AWS but we are open to anything
- II. Ability to duplicate the deployment for other users and have little maintenance

Database:

Fields

- I. SKU (4 Digit Number)
- II. FNSKU
- III. Item Name (Maximum of 70 characters)
- IV. Condition (Default to NEW ITEM)

Entry

- I. Bulk upload in the beginning and then one by one entry for new skus

User Interface:

- I. Search/Lookup Box (SKU)
- II. Expiration date entry (this field is optional. Not every item will have an expiration date
 - A. Expiration dates are variable and will be different every time. There is no need to store this information
- III. Item Name: displayed based on the sku entered
- IV. FNSKU: displayed based on the sku entered
- V. Label Preview: displays what the label will look like when generated/printed
- VI. Quantity to Print: number of copies of the label we need. Ex: User enters 24 in quantity to print, there will be 24 copies of the label in the pdf generated.
- VII. Print Button: button we hit to generate the pdf of labels

Sample interface is located at the bottom of this pdf

Label Output:

3x2 label in pdf format.

- I. FNSKU displayed as a code 128 barcode
- II. FNSKU displayed as text under the barcode
- III. Item Name displayed as text in size 8 open sans font
- IV. Item Condition displayed as text in size 8 open sans font
- V. Best By: date displayed as text in size 8 open sans font
- VI. This Is A Set - Do Not Separate in a box, displayed as bold size 8 opens sans font
- VII. Suffocation Warning, exact text as below displayed as size 10 open sans font
 - A. Warning: To avoid the danger of suffocation, keep this plastic bag away from babies and children. Do not use this bag in cribs, beds, carriages, or playpens. This bag is not a toy.

Label needs to be rotated in the output, sample pdf link is here to show what the output pdf needs to be like -
